

I've Got A Green Couch

I've got a green couch in a
quiet studio apartment, #411
for your information.

A murphy bed in the closet
but I've got a green couch if
I don't feel up to going a round
with mad dog Murphy.

It meet all my needs my 411
It beats hell out of the streets
I've got a green couch, dark
green my favorite color it came
furnished and all bills paid.

I'm a satisfied customer sittin'
here on my dark green couch.
I wonder if I could sit here in
the quiet of my little apartment
being comfortable with only myself
for company if the couch were some
other color? It's not something to
give any thought to really. I've got
a green couch.
