What is it & what does it mean to me?

- If you are not in the Medicaid program, NorthSTAR will buy your medicine through the 340B Program.
- The money for medicine will go farther and allow more people to get the medications they need to get better.
- You will be able to get a physical health screening from the University of Texas Medical Branch (UTMB) at your clinic.

What is 340B?

340B is a program the government has to allow certain clinics and hospitals to get better prices for medicine.

How is NorthSTAR able to use the 340B program?

NorthSTAR is forming a partnership with UTMB and they are able to get medicine using the 340B program.

Will this program change how I get my medications?

YES— This program requires that each clinic have only ONE drug store where you can get your medications.

How will I know what drug store I need to go to?

Your doctor or case worker will tell you what drug store to use to get your medications.
